subject: **Request for Interview - EUDR Engagement Evaluation**

Dear Pak Erwin,

I am writing to ask your availability to be interviewed for the EUDR Engagement evaluation process.

The EUDR Engagement project was implemented from 2025-2026 by the European Union and facilitated by GIZ.

The evaluator team is planning to conduct the interview with GAPKINDO on **Friday, 10 April 2026 morning**.

Please confirm your availability for the proposed time.

Pak Dadang Setiawan (CC-ed in this email) as the evaluator in charge for Indonesia component of the project will be in touch with you directly to arrange the technicalities of the meeting.

Please find attached the corresponding TOR, schedule, and cover letter from EU for your reference.

Do let us know should you need further clarification.

Many thanks for your cooperation.

Best regards,

Cecilia Novarina

Cooperation Area: Resilient Nature

Sustainable Agriculture for Forest Ecosystems (SAFE) and Sustainability and Value Added in Agricultural Supply Chains in Indonesia (SASCI+)

Brussels, 3 March 2026

TO WHOM IT MAY CONCERN

Subject: Final evaluation of FPI support to reduce EU-driven deforestation and forest degradation in Southeast Asia and Latin America

This is to inform you that the European Commission has initiated a *Final Evaluation of the EU-funded project FPI support to reduce EU-driven deforestation and forest degradation in Southeast Asia and Latin America*. This evaluation, which started in January 2026, is tasked with: a) providing an overall independent assessment of the past performance of FPI projects supporting EU's bilateral and multilateral efforts related to the implementation of the EU Deforestation Regulation (EUDR); b) identifying key lessons learned, conclusions and related recommendations to improve current and possible future similar actions.

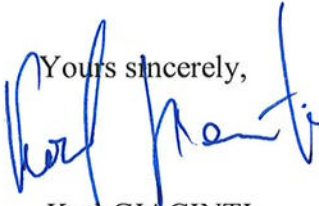

To carry out this study, we have concluded a contract with NIRAS International Consulting.

The evaluation will include country field missions, taking place during March and April 2026, in Latin America (Argentina, Brazil, and Colombia), and in Southeast Asia (Laos, Indonesia, Malaysia, Thailand, and Vietnam).

The expert team carrying out the evaluation, and the principal countries they will visit, are:

- Seán John Burke (Laos, Thailand, Vietnam)
- Luciana Capuano Mascarenhas (Argentina, Brazil, Columbia)
- Dadang Setiawan (Indonesia, Malaysia)

We would appreciate it greatly if you could find the time to be interviewed by the experts, if requested, and provide them with any documentation you may find relevant and facilitate contacts with other persons you may consider relevant for this evaluation assignment.

Yours sincerely,

Karl GIACINTI
Programme Manager

Evaluation of INTV-22208 Engagement with Indonesia, Malaysia, Laos, Thailand and Vietnam to raise awareness on and to promote better understanding of the EU approach to reducing EU-driven deforestation and forest degradation

Country Field Mission Programme (Working Draft for discussion and further development)

Country: INDONESIA

Timing: 8 -14 April 2026

Draft status: *Final working draft*

EU Programmes: EU Deforestation Regulation (EUDR)

Annex: Stakeholder Mapping – INDONESIA

Sub-Group	Key Entities Identified	Role & Strategic Interest
EU services	EU Delegation to Indonesia (Sander Happaerts, Eloise O'Carroll)	Role: Policy co-ordination for EUDR FPI in-country support and diplomatic oversight. Strategic Interest: Positioning the EU as a collaborative technical partner rather than a regulatory enforcer, and shifting the narrative towards shared sustainability goals..
National government	- CMEA (Coord. Ministry for Economic Affairs) - Dr. Dida Gardera - MoA / Pusdatin (Mukhamad Subehi) - MoA Directorate of Estate Crops (Doris Monica Sari Turnip)	Role: "Dual-Track" governance. CMEA leads political/policy coordination, while MoA leads technical implementation. Strategic Interest: Maintaining data sovereignty, integrating STDBs into a unified National Dashboard, and preventing trade disruptions.
Specialised public agencies	- MoA / Pusdatin (Ministry of Agriculture Data Center) - Directorate General of Estate Crops - BIG (Badan Informasi Geospasial/ Geospatial Information Agency)	Role: The Technical data managers, spatial mapping authorities, and specialized funding bodies. Strategic Interest: Managing the technical architecture of the National Dashboard, ensuring interoperability of geospatial data, and financing sector readiness.
Sub-national authorities	- Agricultural/Plantation Extension Offices in West Kalimantan (Kapuas Hulu, Pontianak) - Agricultural/Plantation Extension Offices in Central Sulawesi (Palu, Poso, Sigi) – Cocoa & Coffee	Role: Regional implementers and local data aggregators (e.g., issuing STDBs). Strategic Interest: Executing the sector-wide outreach strategy and ensuring regional farmers are mapped and prepared for compliance.
Producer Organisations	- Cocoa Farmers, Central Sulawesi (e.g., Kristina Rampang - Sigi/Kulawi) - Coffee Farmers, Central Sulawesi (e.g., Nurlin Benuku - Lore Peore) - Rubber Cooperatives, West Kalimantan	Role: Upstream producers engaged via virtual case-study consultations. Strategic Interest: Securing fair pricing, maintaining market access, and receiving capacity-building on Good Agriculture Practices (GAP).
Private exporters / sector companies	- Continental - Olam Agri - ECOM - JBCocoa - Koltiva - Kolemago Coffee (Palu)	Role: Supply chain managers, aggregators, and traceability technology developers. Strategic Interest: Implementing practical preparedness guides (e.g., Koltiva), securing traceable supply lines, and achieving interoperability with the National Dashboard.

Sub-Group	Key Entities Identified	Role & Strategic Interest
Producers Association (small, medium, large)	• Gapkindo (Rubber Assoc.) • Saka Dala (Smallholder Facilitator) • Cocoa Sustainable Partnership (CSP) • SPKS • APKASINDO • SCOPI	Role: Sector coordination, advocacy, and independent monitors. Strategic Interest: Seeking simplified due diligence procedures and realistic transition periods for smallholders.
Civil Society Organizations (CSOs)	• CSO Forum on EUDR • Kaoem Telapak (Forest Watchdog) • AMAN (Indigenous Peoples) • Madani Berkelanjutan • ECOM • Satya Bumi	Role: Advocacy and Facilitation. Supporting members with compliance and mapping. Strategic Interest: Ensuring the application of Leave No One Behind (LNOB) principles, safeguarding indigenous/vulnerable groups, and representing specific commodity interests.
Technology providers	• EFI (KAMI Project) • Team Europe (TEI) Partners • PT. Surveyor Indonesia • Koltiva • Continental	Role: Traceability technology developers and digital compliance solution providers. Strategic Interest: Implementing practical preparedness guides (e.g., Koltiva), providing cost-effective digital mapping tools, and achieving technical interoperability with the National Dashboard.
Academia & Research	• CTSS IPB University (Bogor Agricultural Univ.) • WRI (World Resources Institute) • DIPI	Role: Scientific Authority. Providing the baseline data for "Forest Reference Emission Levels" (FREL) and geospatial definitions. Strategic Interest: Driving the integration of the centralized E-STDB database (WRI), providing baseline legality research (IPB), and verifying operational compliance protocols.
Certification Bodies	• PT Surveyor Indonesia • Rainforest Alliance	Role: Verification Entities. Licensed to audit ISPO/RSPO compliance. Strategic Interest: Gaining operational clarity on audit protocols for EUDR criteria versus existing national schemes.
Other Non-EU Donors	• USAID (SEGAR Project) – Ibu Josi Katarina • World Bank (Land Tenure Programs)	Role: Development Partners. Supporting complementary sustainability and land tenure programs. Strategic Interest: Ensuring programmatic alignment and potential co-funding of smallholder mapping initiatives to maximize resource efficiency.

TERMS OF REFERENCE (TOR)
Country Field Mission: Indonesia
Evaluation of FPI Support to Reduce EU-Driven Deforestation and Forest Degradation (INTV-22208)

Mission Implementor: Dadang Setiawan (Key Expert 3)

1. Background and Context

The European Union's Foreign Policy Instruments (FPI) funded intervention INTV-22208 aims to engage partner countries to raise awareness and promote a better understanding of the EU Regulation on Deforestation-free Products (EUDR). As smallholders fear exclusion due to the implementation of the EUDR, how the EU communicates these requirements and how they are understood by affected stakeholders in producing countries will shape the future of trade relationships and the credibility of EU climate leadership.

The operational context in Indonesia is characterized by a "Dual-Track" governance model balancing political coordination led by the Coordinating Ministry for Economic Affairs (CMEA) with technical implementation led by the Ministry of Agriculture (MoA). Recent ministerial reshuffles and ambiguities surrounding the national dashboard complicate case-study validity, necessitating a highly adaptable evaluation approach that applies a political-economy lens to respect the unique on-the-ground reality.

2. Objectives of the Mission

The primary objective of the Indonesia country mission is to examine the project's success in raising awareness, evaluating its relevance, effectiveness, and EU added value.

Specific objectives include evaluating:

- **Outreach Effects and Public Diplomacy:** Assessing the impact of the project's communication strategies and stakeholder engagement, particularly focusing on Jakarta-based stakeholders and the cascading effects to sub-national levels.
- **Sub-National Engagement:** Evaluating the effectiveness of the sector-wide outreach strategy targeting regions like Central Sulawesi (Palu, Poso) and West Kalimantan (Kapuas Hulu, Pontianak) by engaging local government counterparts.
- **Capacity Building:** Reviewing the delivery of analytical materials and practical guides.

3. Scope of Work and Key Evaluation Questions (EQs)

The mission will focus on gathering evidence to answer the core evaluation questions using OECD criteria (Please note: this refers to the general evaluation framework; the specific questions will be provided during the interview.) :

- **Relevance and Coherence:** To what extent did the project outputs address the specific information needs of Indonesian stakeholders, and how coherent is the communication strategy regarding the EUDR?
- **Implementation Experience (Efficiency):** How efficiently did the intervention facilitate exchange among stakeholder groups, and how flexible were management modalities in adapting to attribution challenges and ministerial reshuffles?
- **Progress towards results (Effectiveness):** Did stakeholder engagement activities lead to measurable improvements in understanding EUDR requirements?
- **Impact and Sustainability:** What are the early indications of sustained use of project outputs by stakeholders regarding preparation for EUDR implementation?
- **EU Added Value:** To what extent did the EU successfully position itself as a collaborative partner rather than a regulatory enforcer?
- **Cross-Cutting Issues (EQ8):** How effectively did the intervention incorporate Leave No One Behind (LNOB) and gender equality principles to prevent economic exclusion?

How were civil society organizations (e.g., AMAN, Kaoem Telapak) engaged to safeguard vulnerable groups and ensure that marginal, sub-national voices were included in the broader EUDR dialogue?

4. Methodology

The mission will employ a theory-based, mixed-methods approach utilizing a political-economy lens.

- **Document Review:** Analysis of produced studies, outreach records, and communication products (e.g., factsheets, practical guides).
- **Key Informant Interviews (KIIs) & Focus Groups:** Structured dialogues with federal ministries, private sector operators, and civil society using in-person meetings in Jakarta.
- **Virtual Local Government Consultations:** To mitigate attribution challenges associated with physical site selection, engagements will be conducted virtually, focusing on local government counterparts (e.g. in Central Sulawesi and West Kalimantan).

5. Case Studies Report Arrangement

Data collected during the Indonesia mission will directly feed into the development of an overarching evaluation Case Study:

- **Case Study 1 - EU EUDR Public Diplomacy:** Assessing the effectiveness of shifting the narrative from regulatory enforcement to a collaborative technical partnership, focusing heavily on Jakarta-based stakeholder dialogues and outreach effects.

6. Key Stakeholders to be Consulted

The evaluation consultant (KE3) will engage with a representative cross-section of stakeholders:

- **EU Services:** EU Delegation to Indonesia (Sander Happaerts, Eloise O'Carrol).
- **National Government:** CMEA (Dr. Dida Gardera), MFA, MoA / Pusdatin.
- **Implementing Partners:** GIZ Indonesia (Jonas Dallinger, Cecilia Novarina).
- **Private Sector, Producers & Verification:** Olam Agri, Continental, Koltiva, Gapkindo, WRI, PT. Surveyor Indonesia.
- **Civil Society & Academia:** Saka Dala, AMAN, Kaoem Telapak, IPB-CTSS.
- **Sub-National/Virtual Participants:** Local government counterparts in Central Sulawesi (Simpra U. Tajang) and West Kalimantan (Heronimus Hero).

7. Mission Itinerary

- **Day 1 (Wed, April 8):** Afternoon initial briefing with the GIZ Indonesia team; technical meetings with MoA / Pusdatin, Directorate of Estate Crops, and Saka Dala.
- **Day 2 (Thu, April 9):** High-level coordination meetings focusing on Jakarta-based stakeholders including CMEA, MFA, EU Delegation, and SCOPI.
- **Day 3 (Fri, April 10):** Civil Society and Producer Association focus: CSP, Gapkindo, Kaoem Telapak, AMAN, and WRI.
- **Day 4 (Mon, April 13) - Virtual Sub-National Consultations:** Dedicated virtual meetings with local government counterparts and local authorities from alternative sites such as Central Sulawesi (Palu, Poso) and West Kalimantan (Kapuas Hulu, Pontianak).
- **Day 5 (Tue, April 14):** Traceability and technology focus with Continental and Koltiva; official evaluation debriefing with the EU Delegation to Indonesia.

8. Expected Deliverables

- **Country Mission Report:** A formal report submitted to the FPI Evaluation Manager and relevant EUD counterparts within two weeks following the

completion of the field mission, adhering to the prescribed 4-section template structure (Introduction, Mission Findings, Lessons Learned, Annexes).

- **Case Study Contributions:** Curated evidence, virtual observation notes submitted to the Team Leader for integration into the central Case Study reports.
