

Report Summary from TRA-TLA Rubber Dinner 2026

Centara Grand & Bangkok Convention Centre at CentralWorld

Prepared for: GAPKINDO | Widyantoko Sumarlin, MPP, Ph.D | 09 May 2026

1. Key Agenda

Time	Segment	Speaker
19:00	Opening remarks	1. President of The Thai Rubber Association (TRA), Mr. Veerasith Sinchareonkul. 2. President of Thai Latex Association (TLA), Mr. Pongnarate Wanasuwankul. 3. Chairman of the Senate Subcommittee on Finance, Senator Dr. Pongsak Kerdvongbundit.
20:00	Award Presentation Ceremony	TRA & TLA Golf Tournament 2026, held on the same day from 6:00 to 12:00 pm for the following categories: - Flight A - Flight B - Flight C - Overall Low Gross
20:30	Traditional Dance	

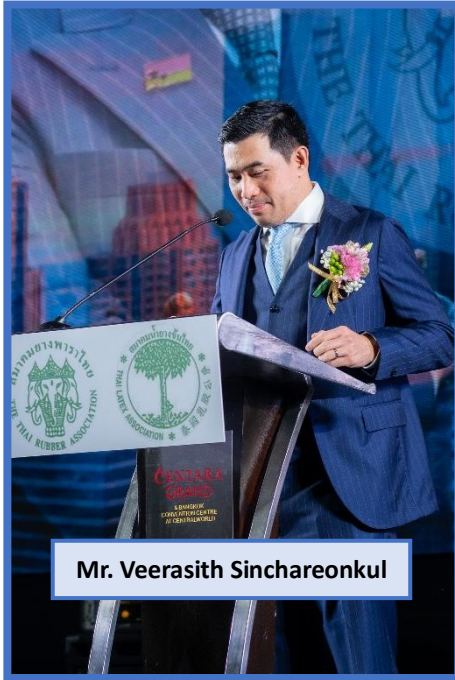

2. Report Summary

- The event demonstrated strong regional participation from ASEAN rubber associations, traders, exporters, processors, shipping/logistics players, and international buyers, reinforcing Bangkok's role as a regional rubber-trade hub. Ivory Coast's APROMAC was invited to the Dinner.
- Messages from the speakers placed emphasis on maintaining sustainability and regulatory readiness, particularly about:
 - the EU Deforestation Regulation (EUDR),
 - carbon-related trade measures,
 - traceability systems,
 - and sustainable smallholder integration.
- Networking and relationship-building across the rubber value chain were a major focus, especially amid ongoing market uncertainty, geopolitical trade tensions, and evolving supply-chain dynamics.
- Market sentiment discussions reportedly centered on:
 - softer global economic growth,
 - supply-chain realignment,
 - climate-related production risks,
 - the need for closer ASEAN coordination, and with the APROMAC in the natural rubber trade.

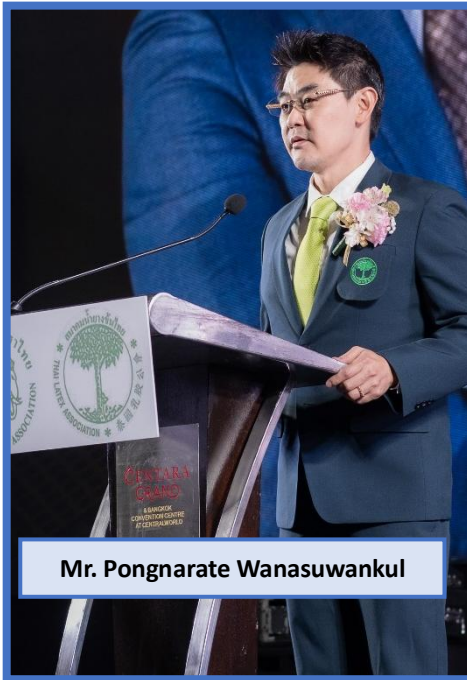

3. Key Insights for Indonesia's Rubber Sector

- **Competitiveness Aspect:** It was announced during the dinner that Thailand's "Rubber City" development program has now evolved into a strategic industrial regional "rubber corridor" stretching along the southern rubber areas and leveraging the well-developed automotive industries for the downstream rubber goods.
