subject: Inquiry on your Service

Hi,

My name is Chester Cheung from Gelber Group in Chicago.

We are conducting research on the rubber market and came across your site for Indonesian rubber. Do you by any chance have national inventory data of rubber within Indonesia, or other statistics? We tried looking at the statistics tab but was blank, but saw you have memberships so was curious what kind of service a member would be able to expect.

Thank you for your time

Chester Cheung
