Financing Resilient Agricultural Supply Chains: Strategic Pathways for Indonesia

Dear colleague,

On behalf of the World Economic Forum's Tropical Forest Alliance initiative, you are cordially invited to join us during the Indonesia Sustainability Forum (ISF) for **the TFA-led panel on Financing Resilient Agricultural Supply Chains: Strategic Pathways for Indonesia**, taking place in Jakarta, Indonesia on October 7th from **08:30 - 09:45 WIB** at the Ballroom in the Kempinski Hotel.

This **high-level panel discussion** will explore how financial institutions, corporates, and policy actors can enable the transition to resilient agricultural value chains through sustainable supply chain finance, risk-sharing mechanisms, and investment strategies that support resilient and inclusive agricultural value chains.

This plenary session will be followed by an **invitation only, closed-door multistakeholder deep dive discussion**, from **10:15 - 12:15 WIB**, focusing on strategic pathways to advance deforestation- and conversion-free (DCF) agricultural commodity production within an increasingly complex global landscape. These sessions will examine opportunities to mobilize capital for landscape restoration, strengthen climate resilience across commodity-producing regions, and address emerging environmental risks.

Kindly RSVP your participation by **23 September.** The invitations are for you personally, but please let us know should you wish to delegate participation to a colleague.
Please ensure you also register to the ISF via the main conference website. This will enable you to join both the ISF overall event and TFA's closed-door discussions.

REGISTER HERE

We look forward to seeing you in Jakarta!
